

# ADD ZPW

## Rinse aid

### DESCRIPTION

---

**ADD ZPW** is a blend of highly effective surfactants for use as a detergent additive and rinse aid with Houghto-Prep ZP systems. It is formulated for use in spray washer operations and can be added to the final rinse stage at temperatures from ambient to 140°F. **ADD ZPW** will lower surface tension for repaints and other hard to wet surfaces.

Use **ADD ZPW** as dictated by the soil load and operating conditions that exist in the system. Usually 1 to 5%, based on the Houghto-Prep ZP, is sufficient to improve cleaning effectiveness. Use at 0.25-0.50% by volume as a rinse aid.

### FEATURES / BENEFITS

---

- Low foaming
- Effective on a wide range of soils as a detergent additive
- Can be used at ambient temperature
- Very effective rinse aid properties
- Effective in all levels of hard water

### OPERATING PARAMETERS

---

Form	Clear liquid
Odor	Mild
Foaming	Low
pH	5 - 7 Neat

AP 15.05 US

### HEALTH AND SAFETY

---

Refer to SDS for proper handling and disposal. Please note that the SDS includes handling, health and disposal information which should be passed on to your employees, and to anyone else who comes in contact with our product. Additional advice can also be obtained from your local Houghton representative.

NOTE: Read and understand all precautions on container labels before using this product.
