HOCUT[®] 8640

METAL REMOVAL FLUID

**PRODUCTIVITY:
IMPROVED.**

**COSTS:
REDUCED.**

**MONEY:
IN POCKET.**

HOUGHTON[®]

Fluid Partnerships Making a World of Difference

Truly innovative HOCUT[®] 8640 technology pays in many ways.

1. Unique cooling and lubricity helps improve surface finish and ability to hold dimensional tolerances, minimizing rework and scrap.
2. No need for sump-side additives; saves on maintenance.
3. Measurably increased tool life lowers cutting tool spend.
4. Faster speed/feed rates reduce cycle times and increases throughput.
5. Less drag out and evaporation means lower makeup/coolant costs.
6. High detergency reduces residue and chip buildup on machine interiors/parts; saves on maintenance.
7. Multi-metal performance; one coolant throughout the shop, simplifies operations.

To view our HOCUT[®] 8640 test results, contact your local Houghton Technical Sales Representative or

call us at 610.666.4000

Here's what customers are saying:

**“WE’VE *REDUCED* OUR
FLUID CONSUMPTION
SIGNIFICANTLY.”**

**“OUR DRILLING
TOOL LIFE HAS
INCREASED BY 40%.”**
