

**HOUGHTON™**  
Fluid Partnerships Making a World of Difference

## **NEW! HOCUT® 8750 Metal Removal Fluid**

Drives up productivity. Drives down costs.

# **AN AUTOMOTIVE MUST!**

### **HOCUT® 8750 INDUSTRY-LEADING PERFORMANCE PAYS IN MANY WAYS.**

- Unique cooling and lubricity helps improve surface finish and ability to hold dimensional tolerances, minimizing rework and scrap.
- No need for sump-side additives; saves on maintenance.
- Measurably increased tool life lowers cutting tool spend.
- Faster speed/feed rates reduce cycle times and increases throughput.
- Less drag out and evaporation means lower makeup/coolant costs.
- High detergency reduces residue and chip buildup on machine interiors/parts; saves on maintenance.
- Multi-metal performance; one coolant throughout the shop, simplifies operations.
