Cerfa-Kleen® 300 is specially formulated to cut through tough oil, grease and tracked-in soils on floors. It effectively removes a variety of soils including but not limited to machining fluids, rubber tire marks, oil and grime from porous and hard-to-clean surfaces. It dries quickly and is based on an anti-slip formula creating a safer workplace.

Customers rave about the way Cerfa-Kleen® 300 removes oil and grease better than any other cleaner.

Cerfa-Kleen® 300 can be used in a variety of industrial settings:

- Machine shops
- Auto repair shops
- Quick-lubrication automotive services
- Food processing plants
- Manufacturing facilities of oil-based products like auto and industrial lubricants
- Commercial parking garages

... anywhere that grease and oil is an issue!

**FEATURES AND BENEFITS**

- Works well for a variety of applications minimizing the need for multiple floor, machine and maintenance cleaners, reducing inventory and cost.
- Outstanding cleaning capability for optimal soil removal and cleaner surfaces.
- Can be used at ambient temperatures to dramatically reduce energy costs.
- Excellent solvency and detergency helps remove grimy tracked-in dirt and delivers excellent cleaning in hard water.
- Non-corrosive mildly alkaline formula balances tough cleaning power with employee safety.
Houghton State-of-the-Art Cleaners

Houghton has a robust line of spray, soak, mass finishing and floor and maintenance cleaners. They are formulated for use in varied applications to remove the excess oils, greases and soils from your process. Many of our cleaners feature biostability, multi-metal compatibility and in-house corrosion prevention.

Building a Team for Customer Success

An approach that combines chemistry and technology with business expertise uniquely positions Houghton to support customer growth and changing market requirements. With over 2,000 employees in 33 countries, and 12 manufacturing facilities in 10 countries, we are well prepared to capture regional and local business opportunities and support growing expansion of global customers.

Through innovation, expertise and efficiency, our engineers and business specialists are able to build a team with the customer that ensures product optimization, employee health and safety, procurement and logistics management, and reduction of environmental impact. By providing both the solution to customers’ fluid challenges and the foundation for continued improvement, Houghton offers a proven method of sustainable profitability.

For immediate consideration and evaluation of your fluids needs, and to request additional support material, please contact your Houghton International sales representative at www.houghtonintl.com

Houghton International has long-standing partnerships with over 20,000 Leading Global Customers serving their metalworking fluids needs across a wide range of applications and diversified endmarkets including automotive, aerospace, fabricated metal goods, bearings, energy, non-ferrous and steel.
